Reasons for Allowance

Claims 1 – 20 are allowed over the prior art of record. An examiner's statement of reasons for allowance is given in the following:

Those claims are allowed is because that the prior art does not teach or fairly suggest the following subject matter:

- A method of designing an integrated circuit (IC) for signal integrity, the method comprising identifying any field effect transistor (FET) that causes a signal integrity failure in the case that an IC design fails a signal integrity analysis and modifying an edge of a failing FET that is closer than a threshold distance to a well edge in combination with other limitations recited in independent **Claim 1**;
- A system for designing an integrated circuit (IC) for signal integrity, the system comprising means for identifying any field effect transistor (FET) that causes a signal integrity failure in the case that an IC design fails a signal integrity analysis and means for modifying an edge of any failing FET that is closer than a threshold distance to a well edge in combination with other limitations recited in independent **Claim 8**;
- A computer program product comprising a computer readable medium having computer readable program code embodied therein for designing an integrated circuit (IC) for signal integrity, the program product comprising program code configured to identify any field effect transistor (FET) that causes a signal integrity failure in the case that an IC design fails a signal integrity analysis and program code configured to modify an edge of any failing FET that is closer than a threshold distance to a well edge in combination with other limitations recited in independent **Claim 15**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
